Ritual is Masonry's Veiled Road Maps.

You must learn how to lift its Veils and read its Maps to Travel its
Undiscovered Country.

This Workshop steps Masons through Ritual and Reveals to them Masonry's rarely seen Terrain. Through instruction and examples, this Workshop helps develop Map Reading skills that further your Masonic Mastery.

*"Imagine Masonic Education that actually 'Builds Better Builders!'
Imagine receiving that Education for yourself!"*

– Br. John S. Nagy

Masons need Transformative Masonic Education! To address this need, Brother John S. Nagy created a series of books, articles and videos showing the Work that brings forth Masonic Mastery. His combined Works now assist Masons toward better Recognizing, Understanding and Executing the Masonic Work to which Freemasonry alludes. Like his other Works, this Workshop brings to Masons a much clearer and cleaner understanding of what is required to Build Better Builders.

This Workshop covers:

- **The Actual EA, FC & MM Work**
- **The Basis Behind The Work**
- **The Transformation and Results That Masons Who Do the Work, Can Expect**
